

MAKE YOUR OWN ORIGAMI MOUSE

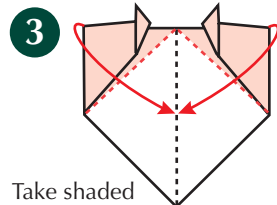

For easier folding refer to blue lines on paper

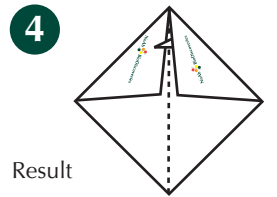

NoAb BioDiscoveries
Logo side down –
Fold shaded panels in

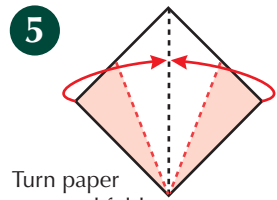

Fold two
triangles up

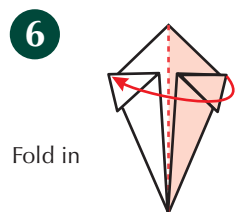

Take shaded
area and fold in

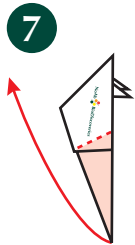

Result

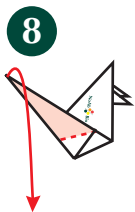

Turn paper
over and fold
shaded area in

Fold in

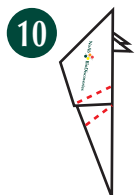

Take pointed
end and fold
on furthest
blue line

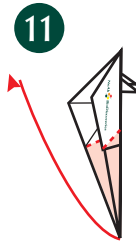

Take pointed
end and fold
down on
second
blue line

Straighten
the pointed
end

Result

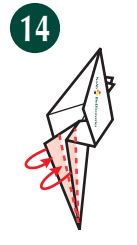

Open middle
and take
pointed end
and push in
on spine to the
furthest fold
created in
step 7

Open middle
as seen and
push spine of
shaded area
back through
so tail turns
inside out on
the second fold
created in step 8

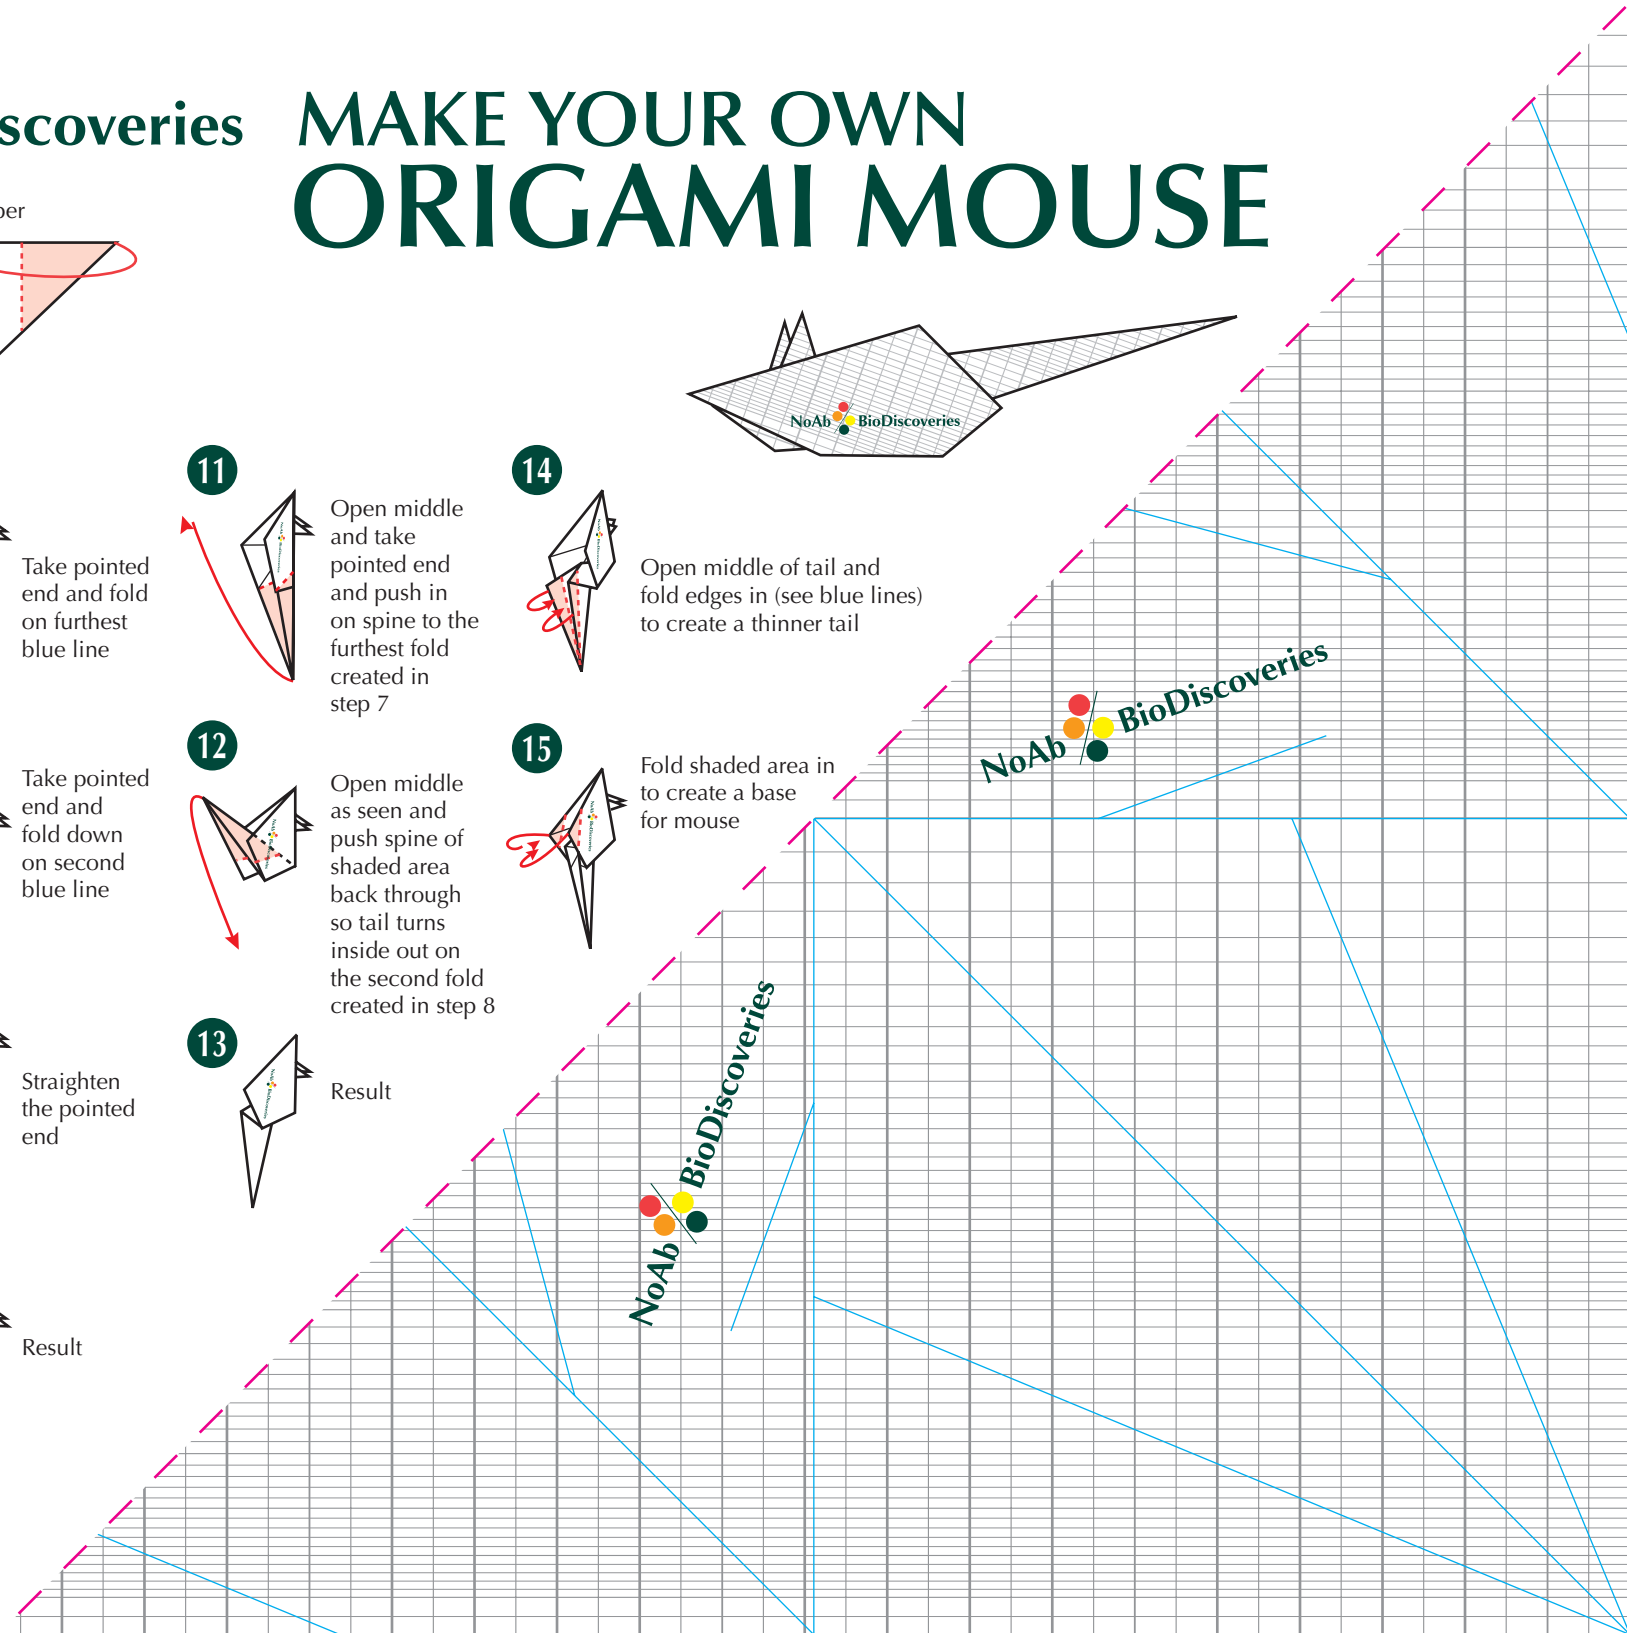

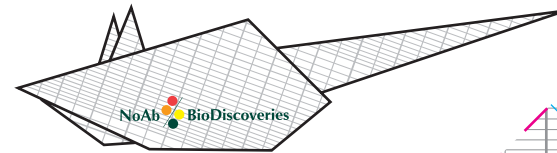

Result

Open middle of tail and
fold edges in (see blue lines)
to create a thinner tail

Fold shaded area in
to create a base
for mouse
